Alicia Hughes, MBA

Aliciahughes1446@gmail.com ● 708-543-8219

OBJECTIVE

Full Stack Developer position within an organization that can fully utilize skills to achieve their business needs and objectives

TECHNICAL SKILLS

- HTML, CSS, JavaScript
- JQuery
- SQL Databases
- Heroku

PROJECTS

MOODUE
https://tmallz.github.io/moodue/
- Languages/Technologies: JavaScript, HTML, CSS, Materialize
- Moodue is an app that allows users to search local events based on their mood. The user is able to choose either a Lively or Mellow mood and get results for concerts, events, movies, and other forms of entertainment in their area.

SHOE INVENTORY
https://fierce-oasis-62967.herokuapp.com/
- Languages/Technologies: JavaScript, HTML, CSS, Bootstrap
- Shoe Inventory is a full-stack web application that allows users to buy or sell used high-end and designer shoes in their local area. It is the perfect platform to sell your gently used high-end shoe, or to find high-end shoes at a bargain price. Shoe Inventory is easy to use, just sign up, then post a picture and information about your shoe.

WORKDAY SCHEDULER
https://smylebryte.github.io/workDayScheduler/
- Languages/Technologies: JavaScript, HTML, CSS, Font Awesome
- The Workday Scheduler is a calendar application that allows the user to save events for each hour of the day. This app uses dynamically updated HTML and CSS powered by jQuery in order to display color coded timeblocks that indicate whether a timeblock is in the past, present or future.
